THE WAR IS OVER

It seems that when a gang gets ahold of something, it is awful

This seems to be the case with the O. P. A. in regard to one of our greatest post-war industries, building material. They complain about no houses for people to live in, and they still try to continue to make it impossible, for those who want to build houses, to do so.

Why don't we forget a lot of these controls and let competition and brains do things for our country? Of course we realize that it would make a lot of jobs for a lot of people who probably never did work, and keep a lot of people, willing to work, out of work.

If you were to study government records you would find that fatal accidents in homes are more than eight times as numerous as those on the railroads. Of course, you know that home is one of the safest places in the world . . . so, the comparison shows just how safe rail travel is.

On the Baltimore & Ohio, the slogan "Safety First" has always had and still has real meaning to our surprise you to learn just how safe it 70,000 men and women. As new and more powerful equipment increases the speed of B&O trains, safety measures, too, are changed and improved. Throughout B&O's 11,000 miles of track, greater safety and speed, more convenience and comfort are benefits we strive constantly and earnestly to bring to you in our daily service.

THE HOUR OF VICTORY

HESE are the most momentous days in the history of our nation . . . glorious, promising days!

For here, now, is the final accomplishment of years of fighting and working and sacrifice. It is the hour of complete victory.

The forces of aggression are stilled over the face of the earth. The thick shadows that have enshrouded the world throughout the years are melting away like a fog before a bright sun. Now we can look at our neighbor and say: "Well, it's here at last . . . the day for which your boy and mine and millions of others have been fighting and praying."

Yes . . . Victorious Peace is ours! So cheer, Mr. and Mrs. America. And let there be a note of prayer, of thanksgiving, in your cheers. For this is for you . . . from your millions of sons and daughters, this precious gift . . . a wonderful, sparkling pearl of peace.

So wear it proudly, Mr. and Mrs. America. It is the symbol of a nation's sacrifice . . . a promise of better things to come.

station or dress shop. Would you like to have a next-door competitor who has little or no rent, or taxes, or interest to pay, and who is kept in business partly by your tax money? Yet this is what happens with govern-

ment and municipal electric power systems. They are not required to pay federal taxes; often get money from the public treasury at little or no interest: make up losses out of your pocket as a taxpayer.

Meanwhile, on the average, America's business-managed electric companies turn back to the people as taxes meet all other obligations without benefit of special privileges.

Today, these tax-paying, self-supporting companies supply over 80% of the tremendous amount of electric power produced in America.

Better vet - at a time when most things cost more - business-managed companies still deliver electricity at low pre-war prices. This record is your assurance that cheap, plentiful, dependable electric power will be yours in the
